PROFESSIONAL SUMMARY

Computer Science Engineering student with a strong foundation in Java, Python, SQL and Object-Oriented Programming. Developed academic projects including a Java-based Skill-Based Job Recommendation System and a responsive personal portfolio website. Strong problem-solving and analytical abilities with hands-on project experience, eager to work with emerging technologies and contribute to real-world technical solutions.

EDUCATION QUALIFICATION

Bachelor of Technology (Computer Science and Engineering)
Kakatiya Institute of Technology & Science, Warangal
2023 – 2027 | CGPA: 8.24 (up to 6th semester)

Intermediate (MPC) – Govt Junior College (Girls), Husnabad
2021 – 2023 | Marks: 976

SSC – Kerala English Medium High School, Husnabad
Passed Out: 2021 | GPA: 10/10

TECHNICAL SKILLS

Programming Languages: Java, Python
Web Technologies: HTML, CSS
Database: DBMS, SQL
Core Concepts: Object-Oriented Programming (OOP)
Tools: Git, GitHub, VS Code

PROJECTS

Project Title: Skill-Based Job Recommendation System

- **Technologies:** Java, Java Swing, GUI, Weighted Graph Algorithm, IntelliJ IDEA
- Developed a java-based desktop application that recommends suitable job roles based on users' skills and interests. Designed an interactive GUI using Java Swing for skill input and recommendation display.
- Implemented a Weighted Graph Algorithm to analyze user skills and generate relevant job recommendations.

Project Title: AgriValue: ML-Based Crop Price and Net Return Analysis System

- **Technologies:** Python, Pandas, NumPy, Scikit-learn, Flask, HTML, CSS, JavaScript, Chart.js
- Developed a web application that uses agricultural market data to estimate crop Modal Prices and compare selected markets based on expected revenue and estimated net return.
- Allows users to enter quantity and transportation cost, analyze different quantities, view market and price information through charts, and download the analyzed results as reports.

INTERNSHIPS AND TRAINING

AI Careers for Women (AICW 2.0) – KITS Warangal

- Completed a 240-hour blended learning program covering Artificial Intelligence, Machine Learning, Data Analytics, and Deep Learning.
- Developed **AgriValue**, an ML-based crop price and net return analysis web application as a capstone project.
- Secured **5th Prize** at the AICW 2.0 Capstone Project Expo, October 2026.

AWS Cloud Computing Training | Internshala Trainings

- Completed a 6-week training program on AWS Cloud Computing. Gained knowledge of AWS services including EC2, S3, VPC, IAM, Cloud Security, and Databases. Learned cloud infrastructure, deployment concepts, and AWS management services.

CERTIFICATIONS

- AICW 2.0 Capstone Project Expo – Certificate of Participation, KITS Warangal (October 2026)
- AWS Cloud Computing Training – Internshala Trainings
